A Presentation About **Municipal Software**
Designed Just For **You**

Your Municipality, your way

- Where do you see your community in the future?

- As elected and appointed community leaders – How are you going to get there?

- You DO have all the answers right?

TownSuite®
MUNICIPAL SOFTWARE
Urban Functionality, Rural Practicality

Your municipality
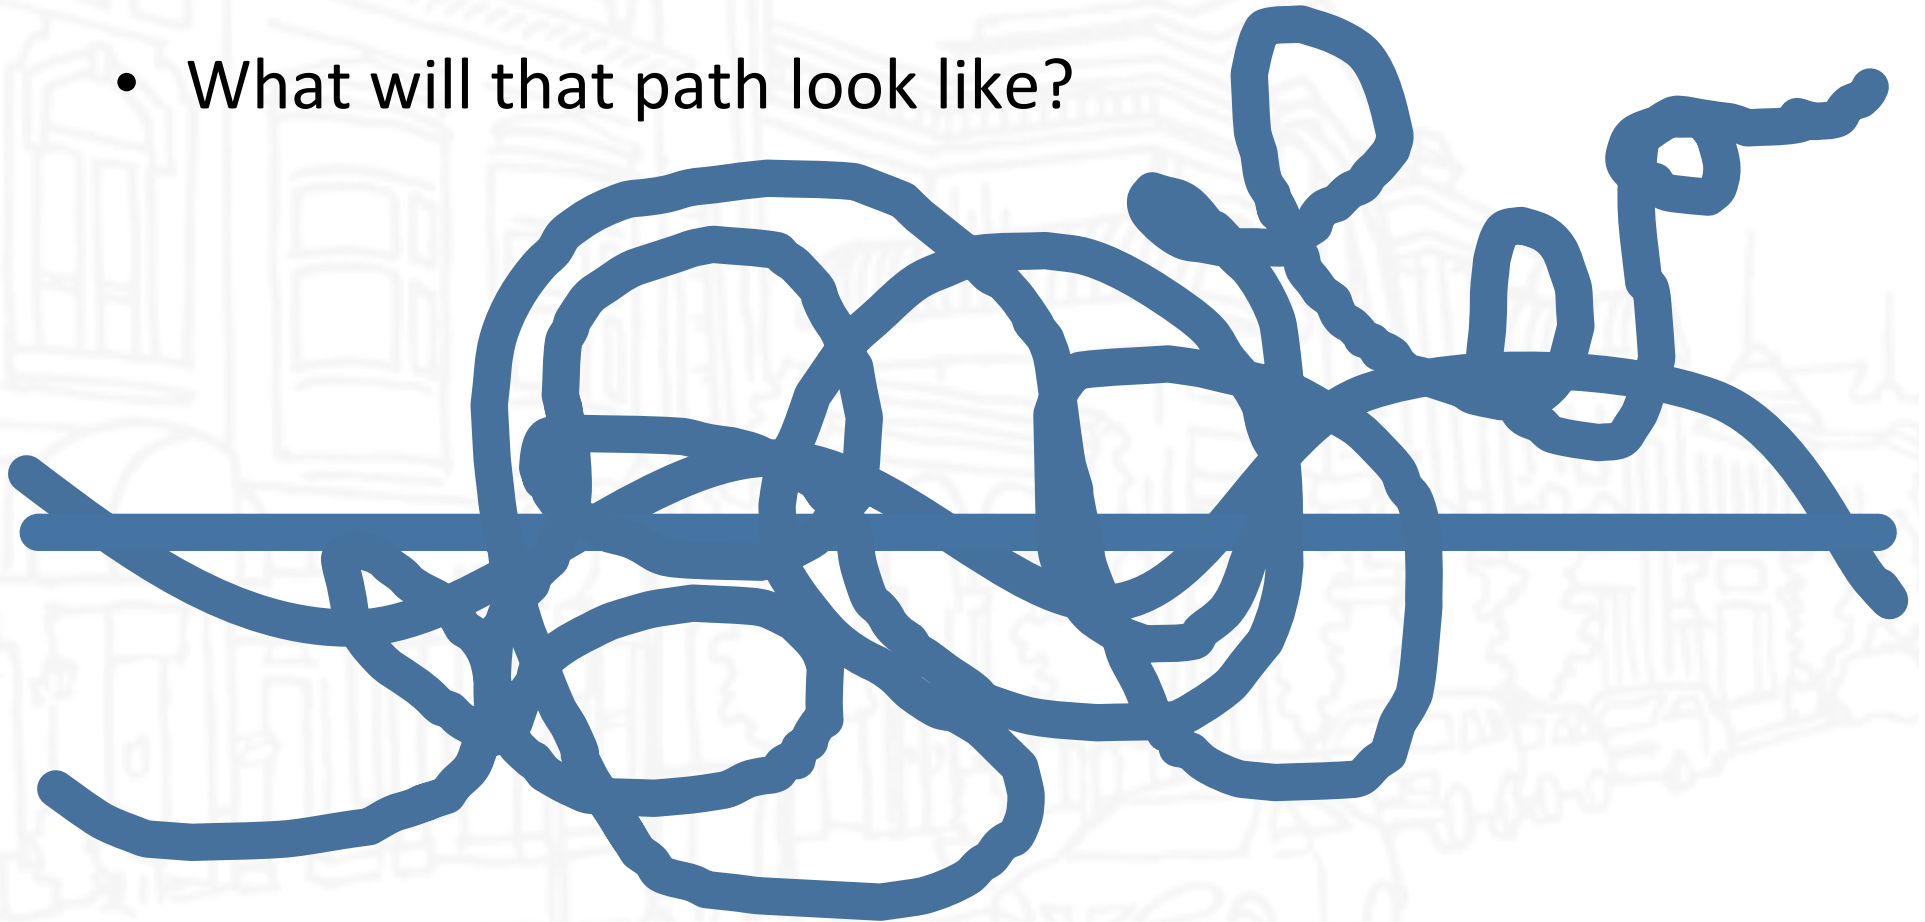

- Everyone pays their bills
- Infrastructure is all in fine working order
- Any services that your stakeholders want are available

TownSuite®

Urban Functionality, Rural Practicality

Finding your way

- Getting there not so much about leading, but finding the way.

- You must find the right path for your community.

TownSuite®
MUNICIPAL SOFTWARE
Urban Functionality, Rural Practicality
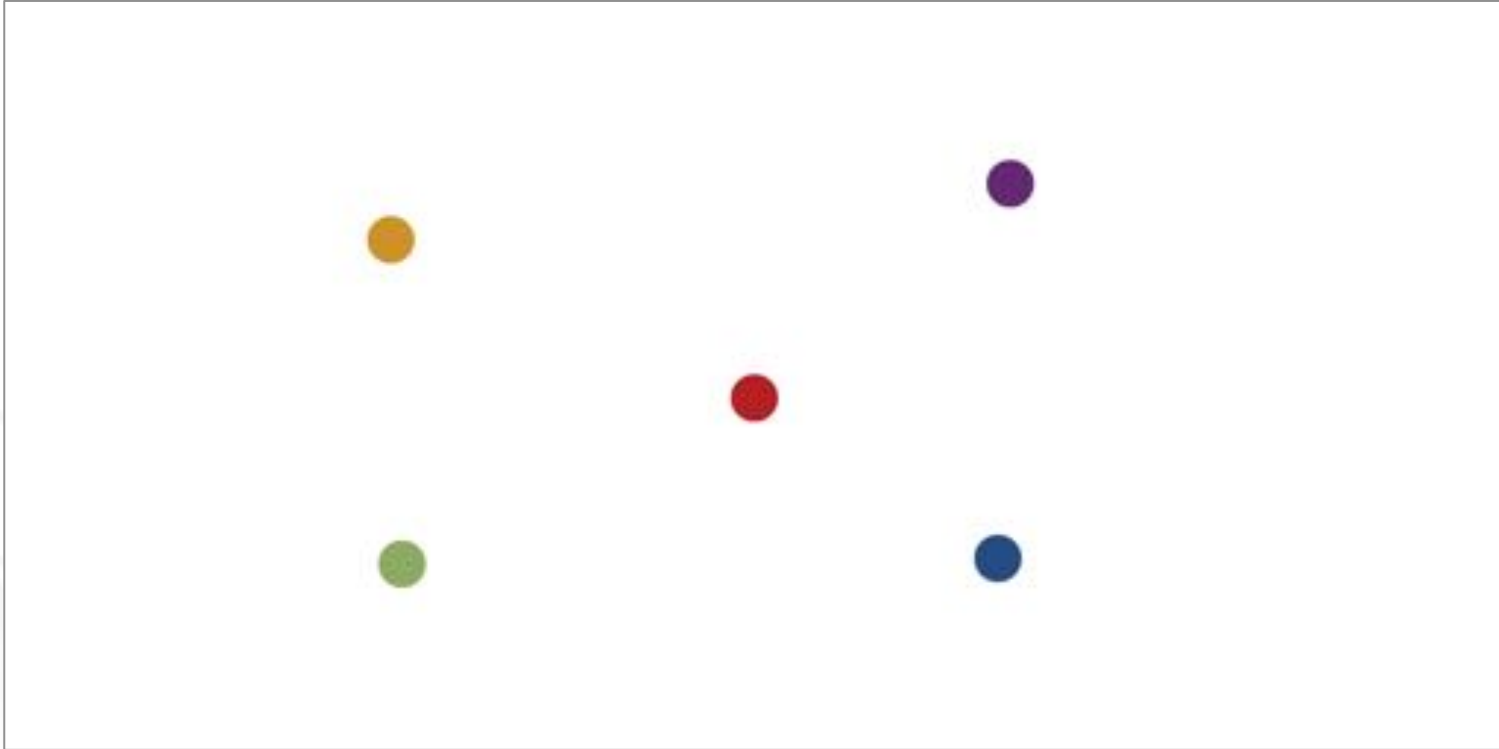

Finding your way

- What will that path look like?

Where to Start?

- Define your goals and objectives.

- Why are they important?

- What will you need to achieve them? What dots do you need to connect?

Connect the Dots

Where to Start?

- Look at your current municipality.
- Who?
- What?

The Right Tools

- They are developed and improved with your input – you are the real experts
- They "get" municipalities
- They are made to work together
- They pay for themselves over time
- They connect information and people
- They will grow and evolve over time
