

EXPRESSION OF INTEREST

Information Technology (IT) Referral Program

Municipalities Newfoundland and Labrador (MNL) was formed in 1951 as an umbrella organization mandated to represent municipal government interests, and as a vehicle for municipal leaders to share information and resources. MNL represents the 276 cities, towns and Inuit Community Governments in Newfoundland and Labrador that service 85 per cent of the population, as well as their 2,000 elected leaders.

MNL is accepting expressions of interest from qualified firms and/or individuals for the provision of an IT referral program. This program would provide telephone-based advice to MNL's members at no cost. In return, the successful proponent/service provider would receive public recognition as an MNL Preferred Supplier and would have access to MNL's weekly mailout for marketing purposes.

In return for exclusive access to MNL membership and the designation as a MNL Membership Service Provider, the successful firm or individual would also be expected to maintain a minimum profile with the membership through sponsorship of the Annual Municipalities Newfoundland and Labrador Conference and Trade Show and/or a combination of one or more of the other events offered by MNL throughout the year.

Interested parties should respond in writing or via email in the form of a proposal to:

MNL Membership Services
IT Referral Program
79 Mews Place
St. John's, NL A1B 4N2

Questions about this Expression of Interest or email submissions can be forwarded to:
