Together, WE BUILD STRONGER COMMUNITIES.

What's something your town has done around housing that has made a difference?

Where do things tend to stall or fall apart when you try to move a housing idea forward?

What part of housing work feels hardest to take on with the time and people you have?

What kind of help is easiest for your town to use when it's offered?

What's one thing you wish you didn't have to figure out on your own?

If you could make one piece of housing work easier in your community, what would it be?

Thank you

Together, WE BUILD STRONGER COMMUNITIES.
